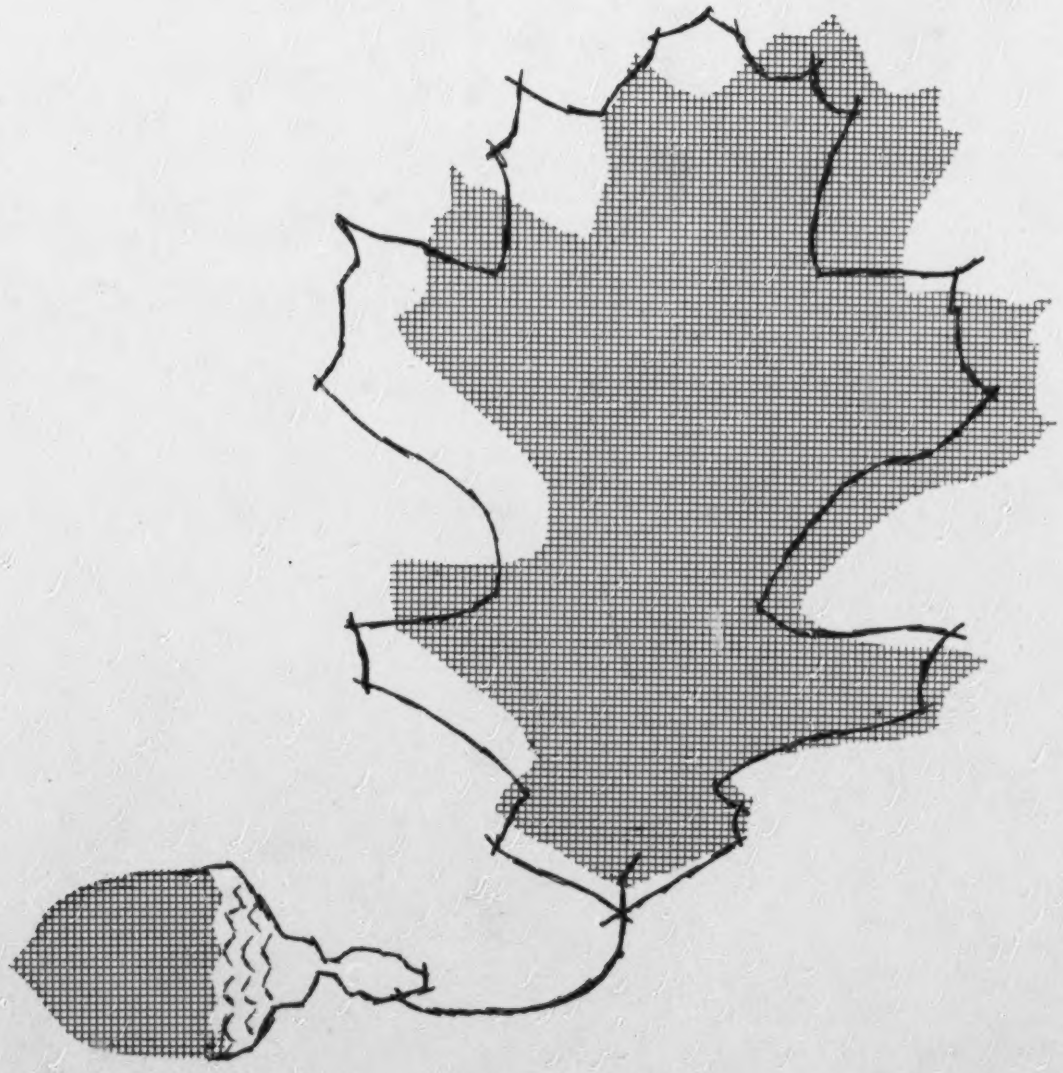
Bibliographic Guide For advanced placement



FRENCH

FL 000 452

Foreword

The provision of adequate printed and published materials in support of Advanced Placement programs in the secondary schools of New York State is considered of paramount importance by the Education Department. The quality of the instructional program is directly related to an abundance of well-selected books and other materials which satisfy the immediate research and reference needs of AP pupils and teachers and which are adequately challenging in terms of reading and content level.

Because of the complexity of modern educational programs and the constantly-growing number of books and other published materials available, the proper selection of materials for schools and libraries has become an increasingly difficult task. It is readily apparent that bibliographic aids, carefully and selectively compiled, are necessary to assist teachers and librarians in choosing appropriate materials for AP programs. This bibliography is an outgrowth of that need.

The series of bibliographic guides were developed under the direction of Leonard T. Kreisman, formerly, Associate, Bureau of Teacher Education, with the assistance of: Carol Byerly, College Entrance Examination Board; Robert Kelley, Supervisor, Education for the Gifted; Helen Rice, Curriculum Coordinator, Irondequoit School System; Lillian Shapiro, Board of Education, New York City; Frank A. Stevens, Chief, Bureau of School Libraries; Esther M. Swanker, formerly Library Coordinator, Schenectady Public Schools; and Alden Vaughan, Columbia University.

This bibliographic guide was prepared for the Department in the spring of 1965 by Daniel LaBeille, French teacher, and Kathleen Hollister, librarian, both of the Columbia High School, East Greenbush, and reviewed in final form by Paul M. Glaude, Chief, Bureau of Foreign Language Education.

NDEA Title III

Most, if not all, the books and periodicals listed on the following pages are approvable for 50% reimbursement under the NDEA Title III acquisition program under an approved Advanced Placement Project. Materials are listed in $500 groups and should be purchased in such groups wherever possible. The groups are listed in the order in which it is recommended they be purchased; that is, the first group is a basic collection and successive groups build a more extensive collection.

Procedures for 50% reimbursement are the same as for other eligible materials under an approved Title III acquisition project. Detailed instructions are given in the Title III NDEA Planning Guide published by the State Education Department. Materials can, of course, be purchased by districts using only their own funds; but if you wish reimbursement under Title III some general rules are given below:

1. Do not order the following reference materials until you have applied for and received project approval from the Division of Educational Finance of the State Education Department in Albany. Application Form A may be obtained from that office.

2. Federal regulations stress the importance of the project in considering items for prior approval.

3. Librarians and teachers should not apply directly to the State Education Department, but through their chief school officer.

4. Textbook quantities of reference books cannot be approved under Title III.

ESEA Title II

ESEA Title II provides for the improvement of selection methods and the purchase of printed and published materials in support of special program needs. The materials listed in this bibliography are, therefore, eligible for purchase with Title II funds and satisfy the high priority of Title II for special educational programs. These materials are highly recommended for your consideration.

For further information on ESEA Title II and NDEA Title III, contact the appropriate program coordinator at the New York State Education Department. For additional copies of this bibliography or for the other ten AP areas contact the Publications Distribution Unit, New York State Education Department, Albany, New York 12224.
